

ONDŘEJ ROSICKÝ, MSc. et MSc., CFA, FRM

ondrarosarsicky@seznam.cz

+420 605 166 808

PROFILE

Finance professional (CFA, FRM) with 5+ years across investment analysis, valuation, financial modelling, treasury and financial risk management. At Rockaway Capital, build DCF/LBO analyses, assess investment and credit risk, evaluate financing terms and prepare recommendations for the Investment Committee. At PwC, completed 50+ cross-asset valuation projects using Monte Carlo simulation, PCA and other quantitative methods, including derivatives and structured products. Strong combination of modelling depth, market knowledge and commercial judgement.

WORK EXPERIENCE

Rockaway Capital

Prague, CZ

Investment Analyst

November 2025 - Present

- Source, screen and underwrite investment opportunities across domestic and international markets, including renewable-energy infrastructure, through market mapping, company and sector research, financial-statement and earnings-quality analysis, and DCF/LBO valuation modelling.
- Cover the firm's Private Credit strategy alongside PE, including credit-risk assessment, debt-instrument valuation and analysis of financing terms.
- Negotiate debt financing terms, covenant packages and pledge/security arrangements with banks and advisors; monitor portfolio credit quality and covenant compliance.
- Support transaction execution and Investment Committee decision-making by preparing IC papers and transaction documentation, coordinating legal and tax diligence, and analysing financial, commercial and operational considerations.
- Track portfolio-company performance and KPIs, analyse deviations from the investment case and budget, and support reporting and value-creation initiatives.

PwC Czech Republic

Prague, CZ

Junior Manager - Treasury advisory team

January 2023 - November 2025

- Advised on financial risk management across interest-rate, FX and commodity exposures, derivatives valuation and hedge accounting.
- Advised on cash and liquidity management, daily cash reporting, forecasting, working capital and treasury-management-system selection, including Kyriba.

Selected Project Experience

- Banking M&A transaction (~\$50MM) - valued the target bank's full balance sheet and simulated FX and interest-rate scenarios to support deal structuring.
- 50+ cross-asset valuation projects - valued stocks, funds, bonds, structured investment certificates, FX forwards, interest-rate and cross-currency swaps, and exotic options.
- Investment underwriting at Rockaway - built DCF/LBO valuation models, tested operating assumptions, analysed returns and assessed financing and covenant terms.
- RStudio/Power BI risk-management tool - modelled hedge ratios and maturities against cash flows, volatility, interest rates, P/L and accounting impact.

Komerční Banka (Société Générale)

Prague, CZ

Junior Salesman - Investment Banking

July 2021 - December 2022

- Quoted, negotiated and executed FX and money-market trades from the bank side, pricing client margins and structuring term sheets and hedging strategies with corporate counterparties.
- Produced monthly market and profitability analysis of the trading platform, tracking client activity and sensitivity to market conditions and margins.

Deloitte Czech Republic

Prague, CZ

Audit data analyst intern

September 2019 - September 2020

- Supported audit engagement teams regarding implementation of IFRS 16 Lease.
- Developed a web app for clients calculating fair value of lease portfolios with reporting outputs.
